Discussion 3
Econ 100B, Summer 25 (Session 2)

1. **Keynes's Productivity Prediction**:

   Read the introduction (pages 1-3) to this Economica paper (pdf in the course files) and answer the following in your post:

   (a) In your own words, what was Keynes's prediction about productivity?

   (b) Does his prediction hold up to what we experience today?

   (c) What are some things that Keynes perhaps overlooked when making his back-of-the-envelope prediction?

   (d) If you had to make your own predictions for how much we will have to work with the rise of AI, what would your predictions be?

2. Please also respond to at least one other student's post.
